

Credit Card Builders is a consulting firm that creates 0% business credit lines. Our members receive a one year business credit building membership where we create up to and over **\$250,000** of **0%** Business Credit for your Business.

The way we define 'business credit' is as follows: Business Credit is personally guaranteed but does not appear on or count against you on your personal credit report. (Personal credit does) The business credit created for you by Credit Card Builders will not appear on your personal credit report, thus creating additional credit for your business, but not negating your ability to get personal credit! This keeps the finances of your personal and business lives separate.
